

Requesting New and Recertification Clinics

Northwest District Presidents and Club Referee Administrators,

WISREF has set a new process for requesting certification and recertification clinics. Starting this year, WISREF will manage the process of approving clinics and selecting instructors to meet your club's needs. Complete [Course Request Form](#) and send directly to Sue Walters (sue@wisref.org) with Copy to John Wagner (referee@district9.soccer).

This process is due to the many changes in the LOG that have been made this year that require a revamping of the clinic format and instructional materials. The delivery of the new instructional model is much more hands-on and the materials **will require an internet connection**, so please choose the venue with this in mind.
